Federal Audit Clearinghouse 1201 E. 10th Street Jeffersonville, IN 47132

To Whom It May Concern:

The Pennsylvania State University's financial, internal control and compliance reports for the fiscal year ended June 30, 2021 are presented on the accompanying pages. The reports have been issued in accordance with the Office of Management and Budget (OMB) Title 2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*. Also enclosed is The Pennsylvania State University's schedule of findings and questioned costs.

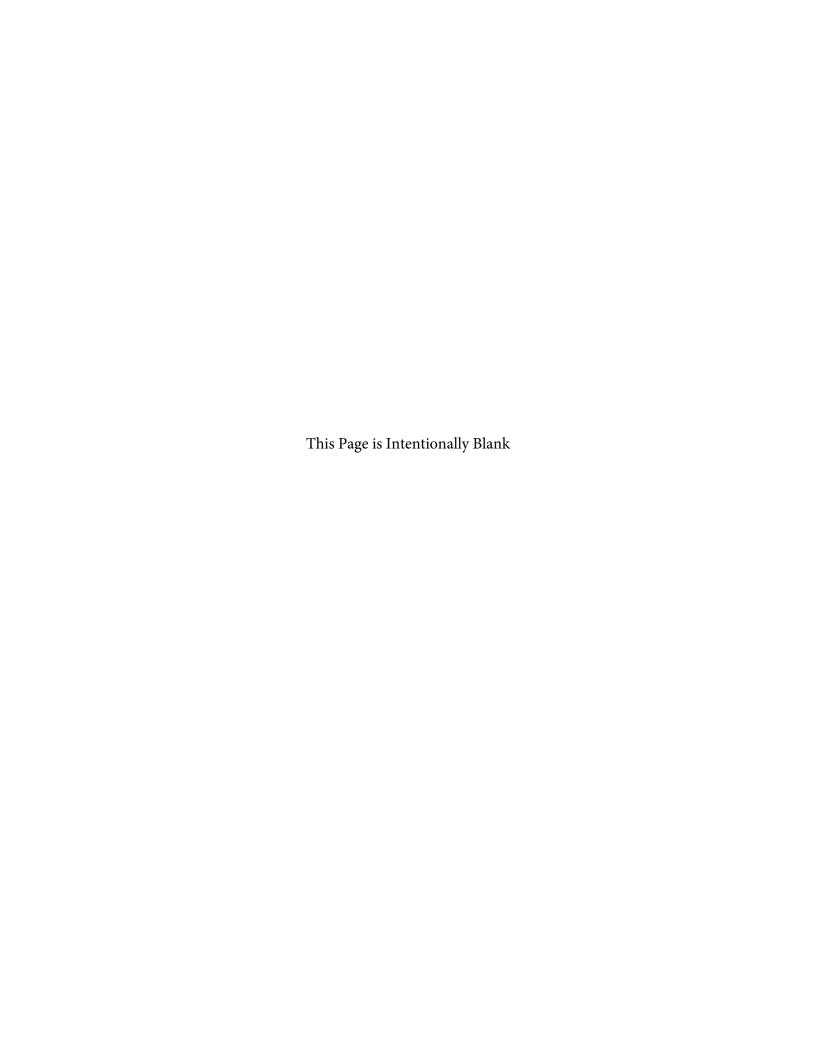

Sincerely,

Joseph J. Doncsecz

Associate Vice President for Finance and Corporate Controller

INDEPENDENT AUDITORS' REPORT

To the Board of Trustees of The Pennsylvania State University University Park, Pennsylvania

Report on the Financial Statements

We have audited the accompanying consolidated financial statements of The Pennsylvania State University and its subsidiaries (the "University"), which comprise the consolidated statements of financial position as of June 30, 2021, and the related consolidated statements of activities and cash flows for the year then ended, and the related notes to the consolidated financial statements.

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

The consolidated financial statements of the University include various subsidiaries as outlined in Note 1 to the consolidated financial statements. The financial statements of Penn State Health, including subsidiaries Nittany Health, Inc.; Saint Joseph's Medical Group; Saint Joseph's Regional Health Network; Penn State Community Medical Group; Central PA Health Network; Penn State Health Hampden Medical Center; Penn State Health Lancaster Medical Center; Penn State Health Life Lion, LLC; Holy Spirit Medical Center and The Corporation for Penn State subsidiaries, including The Pennsylvania State University Philanthropic Fund and Ben Franklin Technology Center of Central & Northern PA; which were audited by us; and the financial statements of Nittany Insurance Company, which was audited by other auditors, were not audited in accordance with Government Auditing Standards.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the University's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the University's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of the University as of June 30, 2021, and the changes in its consolidated net assets and its consolidated cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 2 to the consolidated financial statements, the University has changed its method of accounting for leases, effective July 1, 2020, due to the adoption of Accounting Standard Codification Topic 842, *Leases*. Our opinion is not modified with respect to this matter.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated December 17, 2021 on our consideration of the University's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the University's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with the Government Auditing Standards in considering the University's internal control over financial reporting and compliance.

Supplemental disclosures of cash flow information (Notes 2 and 9)

THE PENNSYLVANIA STATE UNIVERSITY NOTES TO CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2021

1. THE UNIVERSITY AND RELATED ENTITIES

The Pennsylvania State University ("University"), which was created as an instrumentality of the Commonwealth of Pennsylvania ("Commonwealth" or "Pennsylvania"), is organized as a non-profit corporation under the laws of the Commonwealth. As Pennsylvania's land grant university, the University is committed to improving the lives of the people of Pennsylvania, the nation and the world through its integrated, tri-part mission of high-quality teaching, research and outreach.

Basis of Presentation

The financial statements of the University include, on a consolidated basis, the consolidated financial statements of Penn State Health ("Health System"), a Pennsylvania non-profit corporation, and its wholly owned subsidiaries (see Note 13 for additional information), and the financial statements of The Corporation for Penn State and its subsidiaries ("Corporation"). The Corporation is a non-profit member corporation organized in 1985 for the exclusive purpose of benefiting and promoting the interests of the University, the Corporation's sole member. The Corporation's financial statements consist primarily of the assets and revenues of The Pennsylvania College of Technology ("Penn College"), a wholly owned subsidiary of the Corporation. All transactions among the University, the Health System, and the Corporation have been eliminated.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The University's consolidated financial statements are prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America (GAAP). The Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) is the source of authoritative GAAP.

The University's consolidated financial statements include statements of financial position, activities and cash flows. In accordance with FASB ASC requirements, net assets and the changes in net assets are classified as with donor restrictions or without donor restrictions.

Net assets with donor restrictions are net assets subject to donor-imposed restrictions, either in perpetuity or for a specified time or purpose. Net assets with perpetual restrictions consist primarily of the historical amounts of endowed gifts. Additionally, contributions receivable and remainder interests which are required by donors to be retained in perpetuity are included at their estimated net present values. Net assets restricted by time or purpose consist of contributions receivable and remainder interests that are not required to be held in perpetuity. In addition, endowment appreciation and net unrealized losses on donor-restricted endowment funds for which historical cost exceeds market value are included.

Net assets without donor restrictions are net assets not subject to donor-imposed restrictions. These net assets may be designated for specific purposes at the discretion of management or may otherwise be limited by contractual agreements with outside parties. Revenue from donor-restricted sources is reclassified as revenue without donor restrictions when the circumstances of the restriction have been fulfilled. Donor-restricted revenues whose restrictions are met within the same fiscal year are reported as revenue without donor restrictions. All expenses from operations are reported as a reduction of net assets without donor restrictions since the use of restricted contributions in accordance with donors' stipulations results in the release of the restriction.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts on the financial statements and the disclosure of investments, fair value measurements, postretirement benefits, and contingencies and commitments. Actual results could differ from those estimates.

Correction of Previously Reported Consolidated Financial Statements

In preparing its fiscal 2021 consolidated financial statements, the University identified a cumulative out of period error related to certain unconditional gifts that were erroneously recognized as grant (conditional gift) revenue. In accordance with ASC 958-605, since unconditional gifts are recognized as revenue upon receipt, accounts receivable should not have been recognized on amounts spent in excess of the original gift, and revenue should not have been deferred. The cumulative error was the result of certain individual gifts that were not accounted for correctly upon the receipt of the funds and accumulated over an extended period of time. As a result of this accumulation, previously reported accounts receivable and deferred revenue were overstated by approximately \$40.3 million and \$113.2 million, respectively, as of June 30, 2020, and cumulative previously reported gift revenue was understated by \$72.9 million. To correct this error, the University restated previously reported beginning net assets without donor restriction as of July 1, 2020 by \$72.9 million.

In addition, during the fiscal year ended June 30, 2021, the University unwound the application of an accounting convention that had been employed for an extended period of time whereby summer semester tuition funds that are typically collected in April of each year, had been deferred at fiscal year-end and recognized in the subsequent fiscal year. That is, all of the funds were recognized as revenue in the subsequent fiscal year irrespective as to what period within that semester the tuition related, rather than recognized ratably over the entire summer semester (May through August). The rollover impact of deferring the funds from one fiscal year to the next has historically been immaterial to the University's financial statements. In order to unwind this accounting convention, the University restated previously reported beginning net assets without donor restrictions as of July 1, 2020 by \$64.6 million to reflect the recognition of deferred tuition applicable to the portion of fiscal year 2020 summer semester that occurred and was earned prior to June 30, 2020.

The impact from the correction of the foregoing errors on the University's net assets at the beginning of the year – July 1, 2020 is, as follows:

(in thousands of dollars)	Without donor restrictions	With donor restrictions	<u>Total</u>
Net assets at the beginning of the year – as			
previously stated	\$ 6,999,969	\$ 2,824,311	\$ 9,824,280
Correction of cumulative gift error	72,882	-	72,882
Unwind of accounting convention	64,612	-	64,612
Net assets at the beginning of the year – as restated	\$ 7,137,463	\$ 2,824,311	\$ 9,961,774

Revenue Recognition

Tuition

Tuition revenue is recognized over the course of each semester (summer, fall, spring) as instruction is provided to students. Tuition is due from students by the beginning of each applicable semester. Overdue payments are reflected in accounts receivable as the University has an unconditional right to payment.

Tuition receipts of \$64.5 million, included in the adjusted deferred revenue balance at June 30, 2020, were recognized during the year ended June 30, 2021. Institutional financial aid provided by the University for tuition and fees is reflected as a reduction of tuition and fee revenue. As tuition contracts have a duration of one year or less, the University has elected to apply the optional exemption prescribed by ASC 606-10-50-14 and, as such, has not disclosed the aggregate transaction price allocated to unsatisfied performance obligations or the time at which the revenue associated with these unsatisfied performance obligations is expected to be recognized. At June 30, unsatisfied performance obligations under tuition contracts relate solely to summer

semester instruction to be provided in July and August of the subsequent year. Transaction prices for tuition and fees are determined and allocated based on the applicable published tuition and fees schedules.

Grants and Contracts

Grants and contracts revenue is recognized over time as the eligible grant activities are conducted. Grants and contracts deemed to be exchange transactions fall under the scope of ASC Topic 606, Revenue from Contracts with Customers. The performance obligation for each grant or contract is deemed to be the research or program work itself. Work completed under grants and contracts does not result in assets that can be sold to other customers and the University is entitled to payment for the work completed to date. Grants and contracts that are deemed to be contributions fall under the scope of ASC Topic 958, Not-for-Profit Entities. These are deemed to be conditional contributions, as eligible expenditures must be incurred in order to have a right of release of funding from the sponsor. Most grants and contracts are cost reimbursement basis, and incurred expenditures are periodically billed to the customer for reimbursement.

Grants and contracts receipts of \$36.0 million, included in the adjusted deferred revenue at June 30, 2020, were recognized during the year ended June 30, 2021. The University has entered into numerous grants and contracts, with periods of performance ending at various dates from July 1, 2021 through December 31, 2050. The estimated performance obligations remaining under these grants and contracts as of June 30, 2021 total \$1,090.1 million. Transaction prices for grants and contracts are determined and allocated based on the budgets included in the respective award agreements.

Sales and Services of Educational Activities and Auxiliary Enterprises

Revenues from sales and services of educational activities and auxiliary enterprises consist primarily of health services, housing and food services, intercollegiate athletics, campus operations, and hospitality services. Performance obligations associated with these contracts consist of the provision of goods or services, and significant judgment is involved to determine whether the performance obligations are satisfied over time or at a point in time. Typically, revenue associated with semester-based contracts, such as housing and food services, is recognized over the course of the semester as services are provided. For other contracts, such as health services, athletic ticket sales, hotel room charges, and other campus operations, revenue is recognized at a point in time, when the good or service is provided. Contracts included in sales and services of educational activities and auxiliary enterprises are typically one year or less in length. As such, receipts included in deferred revenue at June 30, 2020 were recognized during the year ended June 30, 2021. In addition, the University has elected to apply the optional exemption prescribed by ASC 606-10-50-14 and, as such, has not disclosed the aggregate transaction price allocated to unsatisfied performance obligations or the time at which the revenue associated with these unsatisfied performance obligations is expected to be recognized. At June 30, unsatisfied performance obligations under sales and services of educational activities and auxiliary enterprises relate primarily to summer semester housing and food services to be provided in July and August of the subsequent year, as well as athletic events held during the fall semester. Transaction prices for sales and services of educational activities and auxiliary enterprises are typically straightforward and explicitly stated in the contract.

Health System

The Health System reports net patient service revenue at the amounts that reflect the consideration to which the Health System expects to be entitled in exchange for providing patient care. These amounts are due from patients, third-party payors (including managed care and government programs) and others, and they include explicit and implicit price concessions, as well as variable consideration for retroactive revenue adjustments due to settlement of audits, reviews, and investigations. Generally, the Health System bills patients and third-party payors several days after the services are performed or shortly after discharge. Revenues are recognized as performance obligations are satisfied.

Performance obligations are determined based on the nature of the services provided by the Health System. Revenue for performance obligations satisfied over time is recognized based on actual charges incurred in relation to total expected (or actual) charges. The Health System believes that this method provides a faithful depiction of the transfer of services over the term of the performance obligation based on the inputs needed to satisfy the obligation. Generally, performance obligations satisfied over time relate to patients in the Health System receiving inpatient acute care services. The Health System measures the performance obligation from admission into the Health System to the point when it is no longer required to provide services to that patient,

which is generally at the time of discharge. Revenue for performance obligations satisfied at a point in time is recognized when goods or services are provided, and the Health System does not believe it is required to provide additional goods or services to the patient.

Because all of its performance obligations relate to contracts with a duration of less than one year, the Health System has elected to apply the optional exemption provided in ASC 606-10-50-14(a) and, therefore, is not required to disclose the aggregate amount of the transaction price allocated to performance obligations that are unsatisfied or partially unsatisfied at the end of the reporting period. The unsatisfied or partially unsatisfied performance obligations referred to above are primarily related to inpatient acute care services at the end of the reporting period. The performance obligations for these contracts are generally completed when the patients are discharged, which generally occurs within days or weeks of the end of the reporting period.

The Health System has elected the practical expedient provided by ASC 340-40-25-4 and all incremental customer contract acquisition costs are expensed as they are incurred, as the amortization period of the asset that the Health System otherwise would have recognized is one year or less in duration.

The Health System utilizes the portfolio approach practical expedient in ASC 606 for contracts related to net patient service revenue. The Health System accounts for contracts within each portfolio as a collective group, rather than individual contracts, based on the payment pattern expected in each portfolio category and the similar nature and characteristics of the patients within each portfolio. As a result, the Health System has concluded that revenue for a given portfolio would not be materially different than if accounting for revenue on a contract by contract basis.

Generally, patients who are covered by third party payors are responsible for patient responsibility balances, including deductibles and coinsurance, which vary in amount. The Health System estimates the transaction price for patients with deductibles and coinsurance based on historical experience and current market conditions. The initial estimate of the transactions price is determined by reducing the standard charge by any contractual amounts, discounts, and implicit price concessions (routine uncollectible amounts). Subsequent changes to the estimate of the transaction price are generally recorded as adjustments to patient service revenue in the period of the change. Adjustments arising from a change in transaction price were not material in 2021.

The Health System has agreements with third party payors that provide for payments at amounts different from its established charges. Inpatient acute care services rendered are paid at prospectively determined rates per discharge in accordance with the Federal Prospective Payment System (PPS) for Medicare and generally at negotiated or otherwise predetermined amounts. Inpatient, nonacute, and outpatient services are paid at various rates under different arrangements with third party payors, commercial insurance carriers, and health maintenance organizations. The basis for payment under these agreements includes prospectively determined discounts from the Health System's established charges, fee schedules, and per diem rates for certain services.

Law and regulations governing the Medicare and Medicaid programs are extremely complex and subject to interpretation. As a result, there is at least a reasonable possibility that recorded estimates will change by a material amount in the near term. During 2021, a decrease of \$6.0 million was recognized reflecting the difference in actual versus estimated reimbursement and the change in certain estimates related to prior years' patient service revenue.

The subsidiaries of the Health System provide care to patients who meet certain criteria under its charity care policy without charge or at amounts less than established rates. The Health System does not pursue collection of amounts determined to qualify as charity care; these amounts are not reported as net patient service revenue. The amounts of direct and indirect costs for services and supplies furnished under the Health System's charity care policy totaled approximately \$36.5 million for the year ended June 30, 2021 and was based on a ratio of the Health System's operational costs to its gross charges. The amount of charges foregone for services and supplies furnished under the Health System's charity policy totaled approximately \$73.4 million during 2021.

Overall

The University has elected to use the practical expedient prescribed by ASC 606-10-32-18, in which the promised amount of consideration need not be adjusted for the effects of a significant financing component if

the period between when promised goods or services are transferred to a customer and when the customer pays for the goods or services is expected to be one year or less at contract inception.

Contributions

Unconditional promises to give are recognized as revenues and receivables in the year made and consist of written or oral promises to contribute to the University in the future. Contributions receivable are recorded as donor-restricted revenue, either due to purpose restrictions and/or the implicit time restriction inherent in the future date at which the contribution is to be received. The amounts are present valued based on timing of expected collections.

Fair Value of Financial Instruments

The University has provided fair value estimates for certain financial instruments. Fair value information presented in the financial statements is based on information available at June 30, 2021. The carrying amounts of cash and cash equivalents, accounts receivable and accounts payable and other accrued expenses approximate fair value because of the terms and relatively short maturity of these financial instruments. The carrying values of the University's loans to students are also reasonable estimates of their fair value, as the total outstanding loans to students as of June 30, 2021 have been made at the rates available to students for similar loans at such times. Investments are reported at fair value as disclosed in Note 4. The fair value measurements.

Cash Flows

The following items are included as supplemental disclosure to the statement of cash flows for the year ended June 30, 2021:

\$ 1,839,705
30,598
 34,68 <u>5</u>

6,186
\$ (777)
\$ \$

Capitalized costs accrued related to construction are \$87.7 million as of June 30, 2021. Taxes paid for 2021 are considered immaterial. Cash and cash equivalents include certain investments in highly liquid instruments with remaining maturities of 90 days or less, except for such assets held by the University's investment managers as part of their long-term investment strategies. Short-term investments include other current investments held for general operating purposes with maturities greater than 3 months but less than 12 months.

Accounts Receivable

Accounts receivable at June 30, 2021 consists of the following:

(in thousands of dollars)

Grants and contracts, net of allowance
of \$2,132 \$ 160,777

Patient accounts receivable 395,887

Student receivables, net of allowance
of \$15,701 \$ 51,571

Other, net of allowance of \$7,761 \$ 55,615

Total accounts receivable, net \$ 663,850

The University maintains allowances for doubtful accounts to reflect management's best estimate of probable losses inherent in receivable balances. Management determines the allowances for doubtful accounts based on known factors, historical experience, and other currently available evidence. Receivables are written off when management determines they will not be collected.

Loans to Students

Loans to students are disbursed to qualified students based on need and include loans granted by the University from institutional resources and under federal government loan programs. Students enter a grace period upon ceasing at least half-time enrollment status. The grace period varies depending on the type of loan. Upon expiration of the grace period, interest begins to accrue, and repayment begins one month thereafter. Repayments of these loans are made directly to the University. Loans to students are uncollateralized and carry default risk.

Funds advanced by the federal government of \$33.9 million at June 30, 2021 are ultimately refundable to the government and are classified as liabilities in the consolidated statement of financial position. The federal liability related to the Perkins loan program will be reduced through the return of funds as required by the Department of Education.

Loans to students consisted of the following at June 30, 2021:

(in thousands of dollars) Loans to students:		
Federal government loan programs: Perkins loan program Health Professions Student Loans and	\$	26,252
Loans for Disadvantaged Students		1
Federal government loan programs Institutional loan programs		26,253 19,709 45,962
Less allowance for doubtful accounts: Balance, beginning of year Provision for doubtful accounts Balance, end of year		(3,064) 14 (3,050)
Loans to students, net	<u>\$</u>	42,912

Allowances for doubtful accounts are established based on prior collection experience and current economic factors which, in management's judgment, could influence the ability of loan recipients to repay the amounts according to the terms of the loan. Further, the University does not evaluate credit quality of student loans receivable after the initial approval of the loan. Loans to students are considered past due when payment is not received by the due date, and interest continues to accrue until the loan is paid in full or written off. When loans to students are deemed uncollectible, an allowance for doubtful accounts is established.

The University considers the age of the amounts outstanding in determining the collectability of loans to students. The aging of the loans to students based on days delinquent and the related allowance for doubtful accounts at June 30, 2021 are as follows:

		(in	thousands of dolla	rs)	
	45 days		76-105	Over	
	or less	<u>46-75 days</u>	<u>days</u>	<u>105 days</u>	<u>Total</u>

Inventories

Inventories are stated at the lower of cost or net realizable value on the first-in, first-out basis.

Investments

The University's noncurrent investments represent the University's endowment and other investments held for general operating purposes. The University's investments are reported at fair value in the accompanying financial statements with gains and losses included in the consolidated statement of activities. The University believes that the estimated fair value is a reasonable estimate of market value as of June 30, 2021. The fair value estimations include assumptions and methods that were reviewed by University management. The estimated fair value amounts for public securities held by the University with readily determinable fair values have been based on information as supplied by the various financial institutions that act as trustees or custodians for the University.

Because the fair market value of certain investments is not readily available, the estimated fair value is subject to uncertainty and, therefore, may differ from the value that would have been used had a ready market existed, and such differences could be material. The fair values on these private investments are determined based upon financial information provided by the investment manager.

The University authorizes certain investment managers to purchase derivative securities to attain a desired market position; and the University may directly invest in derivative securities to attain a desired market position. The University does not trade or issue derivative financial instruments other than through the investment management practices noted above. The University records derivative securities at fair value with gains and losses reflected in the consolidated statement of activities.

Beneficial Interest in Perpetual Trusts

The University is the beneficiary of certain perpetual trusts held and administered by outside trustees. The fair value of these trust assets has been recorded as net assets with donor restrictions and related beneficial interest in perpetual trusts in the consolidated financial statements.

Investment in Plant

Total investment in plant as of June 30, 2021 is comprised of the following:

(in thousands of dollars) Land 169,965 8,275,067 **Buildings** Improvements other than buildings 725,067 Equipment 1,950,794 Assets under construction 1,008,180 Total plant 12,129,073 Less accumulated depreciation (5,509,272)Total investment in plant, net 6,619,801

The value of land, buildings, and equipment is recorded at cost or, if received as gifts, at fair value at date of gift commitment. The University does not capitalize the cost of library books. Depreciation is computed over the estimated useful lives of the assets using the straight-line method. Useful lives range from 4 to 50 years for buildings, 10 to 20 years for improvements other than buildings, and 1 to 20 years for equipment. Depreciation expense was \$435.7 million for the fiscal year ended June 30, 2021. The University has certain building and equipment lease agreements in effect which are considered finance leases that are included as long-term debt in the statement of financial position. Buildings and equipment held under finance leases are amortized on a straight-line basis over the shorter of the lease terms or the estimated useful lives of the assets. Total investment in plant associated with these leases was \$46.7 million at June 30, 2021.

Leases

The University determines if an arrangement is or contains a lease at inception of the contract. The right-of-use (ROU) assets represent the right to use the underlying assets for the lease term and the lease liabilities represent the obligation to make lease payments arising from the leases. ROU assets are recognized at commencement date based on the present value of lease payments over the lease term, adjusted for any initial direct costs incurred and lease incentives received, with the subsequent measurement based on lease classification. The lease liability is initially measured as the present value of unpaid lease payments and is subsequently measured using the effective interest method. The value of an option to extend or terminate a lease is reflected to the extent it is reasonably certain the University will exercise that option. The University has used the incremental borrowing rate when measuring its leases as the rate implicit in the lease is not readily determinable. The University's incremental borrowing rate is determined based on comparisons to Indicative Composite Observable Reported Execution (CORE) Yields for various maturities. The CORE is a yield curve that represents an aggregation of daily trade data reported to the Municipal Securities Rulemaking Board. It is a simple average yield of fixed-rate, non-Alternative Minimum Tax, tax-exempt, coupon-bearing municipal bond trades. ASC 842 defines a short-term lease as a lease with a term of twelve months or less that does not include a purchase option that is reasonably certain of being exercised ("short-term leases"). The University has elected, for all asset classes, the short-term lease recognition exemption provided in the standard that eliminates the requirement to recognize on the statement of financial position any short-term leases. The lease expense for these short-term leases is recognized on a straight-line basis over the lease term within operating expenses in the consolidated statement of activities and is not considered material to the consolidated financial statements. Finance lease ROU assets are included in total investment in plant, net, with the related liabilities included in current and noncurrent long-term debt in the consolidated statement of financial position. Operating lease ROU assets and related current and long-term liabilities are separately presented in the consolidated statement of financial position. Expenses for operating leases, amortization of assets held under finance leases. and finance lease interest expense are recognized within operating expenses in the consolidated statement of activities.

The University has elected, for all asset classes, the practical expedient to not separate lease and nonlease components. Certain of the University's lease agreements include payments based on actual maintenance, taxes, insurance, and utilities. Other agreements include rental payments adjusted periodically for inflation. These are deemed to be variable lease payments and are recognized in operating expenses as incurred but are not included in the ROU asset or liability balances. These variable lease payments are not considered

material to the consolidated financial statements. The University's lease agreements do not contain any material residual value guarantees, restrictions, or covenants.

Accounts Payable and Other Accrued Expenses

Accounts payable and other accrued expenses at June 30, 2021 consist of the following:

(in thousands of dollars)	
Accounts payable (non-Health System)	\$ 213,235
Health System accounts payable	
and other accrued expenses	507,550
Health System Medicare APP	117,054
Accrued payroll and other related liabilities	161,111
Accrued interest	30,459
Student deposits	 3,318
Total accounts payable and other	
accrued expenses	\$ 1,032,727

Impairment of Long-Lived Assets

Long-lived assets, which include investment in plant and definite-lived intangible assets, are assessed for impairment whenever events or changes in circumstances indicate the carrying amount of the asset may not be recoverable. An impairment loss is recognized in change in net assets in the period that the impairment occurs.

Asset Retirement Obligations

The University has recognized liabilities for asset retirement obligations. The University has identified asbestos abatement and the decommissioning of the Breazeale Nuclear Reactor as conditional asset retirement obligations. These obligations are reported as part of other noncurrent liabilities within the consolidated statement of financial position. The following table details the change in liabilities:

(in thousands of dollars)	
Balance as of June 30, 2020	\$ 95,430
Adjustment to liability	7,321
Accretion expense	3,876
Liabilities settled	 (3,702)
Balance as of June 30, 2021	\$ 102,925

Annuities Payable

Annuities payable consist of annuity payments currently due and the actuarial amount of annuities payable. The actuarial amount of annuities payable is the present value of the aggregate liability for annuity payments over the expected lives of the beneficiaries.

Net Assets

Net assets consist of the following at June 30, 2021:

(in thousands of dollars)	
Net assets without donor restrictions:	
Designated for specific purposes:	
Health System	\$ 1,627,785
Designated for plant activities	1,524,081
Funds functioning as endowments	1,263,825
Operating general funds carryforward	1,018,758
Unit managed non-general funds	256,689
Designated for scholarships	131,195
Designated for postretirement benefits	(370,630)
Designated for pension prefunding	(1,025,633)
Other designated net assets	<u>252,053</u>
Total designated for specific purposes	4,678,123
Net investment in plant	3,615,323
Non-controlling interest	322,165
Total net assets without donor restrictions	\$ 8,615,611
Net assets with donor restrictions:	
Endowment funds	\$ 3,373,624
Future contributions	228,797
Split-interest agreements	125,432
Contributions for property, plant and equipment	43,893
Student loan funds	19,314
Total net assets with donor restrictions	\$ 3,791,060
Total net assets	¢ 12 406 671
10(a) 1151 a33513	<u>\$ 12,406,671</u>

Net assets without donor restrictions that are designated for specific purposes have been designated at the discretion of management.

Income Taxes

The University files U.S. federal and state tax returns. The statute of limitations on the University's federal returns generally remains open for three years following the year they are filed. In accordance with ASC Topic 740, Income Taxes, the University continues to evaluate tax positions and has determined there is no material impact on the University financial statements.

Recent Accounting Pronouncements

In February 2016, the FASB issued Accounting Standards Update (ASU) 2016-02, "Leases." This update, and the subsequent other ASUs impacting ASC Topic 842, requires substantial changes to lease accounting to increase transparency and comparability among organizations by recognizing lease assets and lease liabilities on the balance sheet and disclosing key information about leasing arrangements. The main difference between previous GAAP and this guidance is the recognition of assets associated with a lessee's right to use an asset and corresponding lease liabilities associated with a lessee's obligation for those leases classified as operating under previous GAAP. This update was effective for the University beginning July 1, 2020. The provisions of this update were applied using the optional modified retrospective transition method provided in ASU 2018-11 that resulted in the adoption date of the new standard being the application date. The University elected the transition package of three practical expedients, which eliminates the need to reassess prior conclusions about lease identification, lease classifications, and initial direct costs when transitioning to the new standard. The University did not elect the use-of-hindsight practical expedient, and therefore will continue to utilize remaining lease terms as determined under the legacy ASC Topic 840 lease guidance. The University will use its

incremental borrowing rate as the discount rate as determined at the effective date of the requirements and as based on the remaining term of the lease at that point. When transitioning to the new lease accounting standard, the University calculated the ROU asset and lease liability on the basis of the remaining ASC Topic 840 minimum rental payments and lease term as of the effective date of the standard, with the ROU asset further adjusted by any unamortized lease incentives, prepaid rent, and straight-line rent accrual as of the effective date. As of July 1, 2020, the University recognized an operating lease ROU asset and an operating lease liability of approximately \$148.0 million, respectively. The standard had a material impact on the University's consolidated statement of financial position; however, it did not have an impact on the consolidated statement of activities or the consolidated statement of cash flows, and there was no adjustment to beginning net assets.

In August 2018, the FASB issued ASU 2018-13, "Fair Value Measurement; Disclosure Framework – Changes to the Disclosure Requirements for Fair Value Measurement." This update modifies the disclosure requirements on fair value measurements in Topic 820, Fair Value Measurement and was effective for the University beginning July 1, 2020. The adoption of this guidance did not have a material impact on the consolidated financial statements.

In January 2020, the FASB issued ASU 2020-01, "Investments – Equity Securities (Topic 321), Investments – Equity Method and Joint Ventures (Topic 323), and Derivatives and Hedging (Topic 815); Clarifying the Interactions between Topic 321, Topic 323, and Topic 815." This update clarifies the interaction of the accounting for equity securities under Topic 321 and investments accounted for under the equity method of accounting in Topic 323 and the accounting for certain forward contracts and purchased options accounted for under Topic 815. This update is effective for the University beginning July 1, 2022 with early adoption permitted. The University is currently evaluating the impact this guidance may have on its consolidated financial statements.

In September 2020, the FASB issued ASU 2020-07, "Not-for-Profit Entities; Presentation and Disclosure by Not-for-Profit Entities for Contributed Nonfinancial Assets." This update requires a not-for-profit entity to present contributed nonfinancial assets as a separate line item in the statement of activities, apart from contributions of cash and other financial assets. In addition, not-for-profit entities are required to disclose additional qualitative and quantitative information related to nonfinancial assets. This update is effective for the University beginning July 1, 2021 with early adoption permitted. The University is currently evaluating the impact this guidance may have on its consolidated financial statements.

Coronavirus Pandemic

In March 2020, the World Health Organization declared the novel coronavirus ("COVID-19") a pandemic. The COVID-19 pandemic has negatively affected national, state, and local economies and global financial markets, and the higher education landscape in general. The pandemic may continue to adversely affect operations and financial condition, including, among other things, (i) the ability of the University to conduct its operations and/or the cost of operations, (ii) governmental and non-governmental funding, and (iii) financial markets impacting investments valuation and interest rates.

The federal government has taken several actions to provide financial assistance during this pandemic. Congress set aside approximately \$76.6 billion between the Coronavirus Aid, Relief and Economic Security Act (CARES), Coronavirus Response and Relief Supplemental Appropriations Act (CRRSAA), and the American Rescue Plan (ARP) allotted to the Educational Stabilization Fund through the Higher Education Emergency Relief Fund (HEERF).

Under CARES and CRRSAA, the University received an allocation of \$55.0 million for emergency aid to students and \$85.0 million for institutional needs. The University distributed student emergency grants of \$30.8 million during 2021 with the disbursement of funds presented within academic and student services expense and the associated revenue captured in United States Government grants and contracts in the consolidated statement of activities. Revenues of \$85.0 million were also recognized as United States Government grants and contracts in the consolidated statement of activities in 2021 related to the institutional portion of the allotted funds. The institutional funds were used to offset lost tuition revenues, refunds for housing and dining services, and COVID testing costs. Both CARES and CRRSAA funding were fully utilized at June 30, 2021.

Under ARP, the University was allotted \$76.2 million for direct emergency aid to students and \$73.8 million for institutional purposes. At June 30, 2021, the University has not drawn on the ARP funds and, therefore, no revenue has been recorded.

As allowed by the CARES Act, at June 30, 2021, the University has deferred payment of \$68.0 million for the employer portion of Social Security payroll tax, which is included in accounts payable and other accrued expenses and other liabilities in the consolidated statement of financial position. Fifty percent of the deferred tax credit must be paid by December 31, 2021 with the remainder by December 31, 2022.

The CARES Act revised the Medicare accelerated payment program ("Medicare APP"). For the year ended June 30, 2020, the Health System received approximately \$160.3 million of Medicare APP funding under this program which is recorded as accounts payable and other accrued expenses in the consolidated statement of financial position. The Health System has not received additional Medicare APP funding during the year ended June 30, 2021. On October 1, 2020, the Continuing Appropriations Act, 2021 and Other Extensions Act ("Act") was passed, which revised the Medicare APP repayment terms and interest rate for amounts received between the passage of the CARES Act and the end of the COVID-19 public health emergency. The Act delays the beginning of the recoupment of the advance payments to twelve months after the receipt of Medicare APP funds and extends the full repayment term to twenty-nine months. In addition, the Act caps recoupments at 25% for the last eleven months of repayment and 50% for the following six months. The interest is capped at 4% for amounts that remain outstanding at the end of the revised recoupment period. Through the acquisition of Holy Spirit Medical Center and Spirit Physicians, Inc., an additional \$27.9 million was recorded as a contract liability during 2021. Recoupment of Medicare APP funds were approximately \$23.0 million for the year ended June 20, 2021. As of June 20, 2021, Medicare APP funds of \$117.1 million are recorded in accounts payable and other accrued expenses within the consolidated statement of financial position. As of June 30, 2021, Medicare APP funds of \$48.2 million are recorded in other liabilities within the consolidated statement of financial position.

Also, during the year ended June 30, 2021, the Health System received approximately \$77.9 million from the Public Health and Social Services Emergency Fund ("Provider Relief Fund") of which \$87.1 million (including \$9.1 million received and deferred at June 30, 2020) has been recognized in Health System revenue within the consolidated statement of activities. Providers who have been allocated a Provider Relief Fund payment must sign an attestation confirming receipt of the funds and agreeing to certain terms and conditions of payment. Amounts recognized in Health System revenue within the consolidated statement of activities are subject to uncertainty as new or revised guidance is released regarding the treatment of the funds. In September 2021, the Health System completed the submission to the Department of Health and Human Services through the on-line portal for Provider Relief Funds received between April 10, 2020 through June 30, 2020. Final approval of the submission has not been received.

The University is unable to quantify the impact that the COVID-19 pandemic will have on continuing financial results during fiscal year 2022, as the impact of COVID-19 will depend on future developments, including the duration of the outbreak and the related advisories and restrictions. The University continues to monitor the course of the pandemic and is prepared to take additional measures to protect the health of the University community and promote the continuity of its academic mission.

3. LIQUIDITY AND AVAILABILITY OF FINANCIAL ASSETS

The University regularly monitors liquidity required to meet its operating needs and other contractual commitments, while also striving to maximize the investment of its available funds. For purposes of analyzing resources available to meet general expenditures over a 12-month period, the University considers all expenditures related to its ongoing mission-related activities as well as the conduct of services undertaken to support those activities to be general expenditures.

Student loans receivable are not considered to be available to meet general expenditures because principal and interest on these loans are used solely to make new loans.

In addition to financial assets available to meet general expenditures over the next 12 months, the University operates with a balanced budget and anticipates collecting sufficient revenue to cover general expenditures not covered by donor-restricted resources. Refer to the statement of cash flows, which identifies the sources and

uses of the University's cash and shows positive cash generated by operations for the year ended June 30, 2021.

The University has various sources of liquidity at its disposal, including cash and cash equivalents and fixed income and equity securities.

The University has designated a portion of its resources without donor restrictions for endowment and other purposes. These funds are invested for long-term appreciation and current income but remain available and may be spent at the discretion of management.

The following reflects the University's financial assets as of June 30, 2021, reduced by amounts not available for general use within one year. Certain long-term investments could be liquidated if needed based on the terms of their agreements.

(in thousands of dollars)	
Total assets	\$ 19,878,734
Less:	
Inventories	(72,604)
Prepaid expenses and other assets	(196,046)

Deposits held for others	(45,690)
Receivables subject to time restrictions	(40,714)
Receivables subject to donor-imposed restrictions	(143,715)
Loans to students, net	(42,912)
Financial assets available to meet cash needs for	
general expenditures within one year	<u>\$ 3,737,297</u>

4. INVESTMENTS

Investments by major category as of June 30, 2021 are summarized as follows:

(in thousands of dollars)		
Fixed income	\$ 3,782,5	575
Equity investments	4,823,6	328
Real assets	469,2	251
Opportunistic	689,4	<u> 146</u>
Total	<u>\$ 9,764,9</u>	<u> 900</u>

Fixed income investments are comprised of public and private fixed income strategies, which include government and corporate debt, mortgage-backed, and other asset-backed related debt. Equity investments include public and private strategies across global, U.S., developed non-U.S., and emerging markets. Real asset investments include public and private strategies utilizing both equity and debt structures that are focused on producing a positive real return during an inflationary environment. Real asset strategies include real estate, natural resources, and commodities. Opportunistic investments include public and private strategies utilizing both equity and debt structures that are expected to achieve absolute returns over longer periods of time and do not classify well into the other three investment types.

Equity index and treasury note futures contracts comprise the University's beneficially held derivative instruments as of June 30, 2021 and are included in the fair value of the University's investments. These contracts are fully cash collateralized and marked to market daily. Futures contracts have minimal credit risk because the counterparties are the exchanges themselves and are employed as a low-cost investment vehicle with daily liquidity which allows the University to maintain desired market exposure considering irregular cash flows. Derivative securities were immaterial as of June 30, 2021.

The following schedules summarize the investment return and its classification in the consolidated statement of activities for the year ended June 30, 2021:

(in thousands of dollars)		Without donor restrictions				lith donor estrictions	<u>Total</u>		
Investment income Net realized gains,	\$	196,619	\$	14,492	\$	211,111			
including endowment spending		144,522		100,527		245,049			
Net unrealized gains		649,663		739,379		1,389,042			
Total returns	\$	990,804	\$	854,398	\$	1,845,202			

5. ENDOWMENT NET ASSETS

The University's endowment includes both donor-restricted endowment funds and funds designated to function as endowments. As required by GAAP, net assets associated with endowment funds, including funds designated to function as endowments, are classified and reported based on the existence or absence of donor-imposed restrictions.

The ASC Not-for-Profit Entities Presentation of Financial Statements Subtopic (ASC Subtopic 958-205) provides guidance on the net asset classification of donor-restricted endowment funds for not-for-profit organizations subject to an enacted version of the Uniform Prudent Management of Institutional Funds Act (UPMIFA) and improves disclosure about an organization's endowment funds regardless of whether the organization is subject to UPMIFA. The Commonwealth of Pennsylvania has not adopted UPMIFA but rather has enacted Pennsylvania Act 141 ("PA Act 141"). PA Act 141 permits an organization's trustees to define income as a stipulated percentage of endowment assets (between 2% and 7% of the fair value of the assets averaged over a period of at least three preceding years) without regard to actual interest, dividend, or realized and unrealized gains.

The University has interpreted PA Act 141 to permit the University to spend the earnings of its endowment based on a total return approach, without regard to the fair value of the original gift. As a result of this interpretation, the University classifies as net assets with donor restrictions the original value of gifts donated to the permanent endowment, the original value of subsequent gifts to the permanent endowment, and accumulations to the permanent endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund. Also included in net assets with donor restrictions are gains and losses attributable to permanent endowments and deficiencies associated with funds where the value of the fund has fallen below the original value of the gift. Funds functioning as endowments are established at the direction of University management and are classified as net assets without donor restrictions due to the lack of external donor restrictions. Also included in net assets without donor restrictions are gains and losses attributable to funds functioning as endowments.

From time to time, due to unfavorable market fluctuations, the fair value of some assets associated with individual donor-restricted endowment funds may fall below the level that donors require to be retained as a perpetual fund, while other assets are unaffected to the same extent and maintain or exceed the level required. Such deficiencies are reported as net assets with donor restrictions. As of June 30, 2021, funds with an original gift value of \$6.2 million were "underwater" by \$2.2 million. Subsequent investment gains will be used to restore the balance up to the fair market value of the original gift.

Endowment net asset composition by type of fund as of June 30, 2021:

(in thousands of dollars)	Without donor restrictions		
Donor-restricted endowment funds Funds functioning as	\$ -	\$ 3,335,969	\$ 3,335,969
Endowments Total net assets	<u>1,259,586</u> \$ 1,259,586	<u>-</u> \$ 3,335,969	1,259,586 \$ 4,595,555

Changes in endowment net assets for the years ended June 30, 2021:

(in thousands of dollars)	Without donor restrictions	With donor restrictions	<u>Total</u>

Endowment spending	(132,693)	-	(132,693)
Transfers to create funds			
functioning as endowments	32,873		32,873
Endowment net assets,			
end of the year	<u>\$ 1,259,586</u>	<u>\$ 3,335,969</u>	<u>\$ 4,595,555</u>

Not included above are the endowment net assets of subsidiaries of \$42.1 million as of June 30, 2021.

The University has adopted investment and spending policies for endowment assets that attempt to provide a relatively predictable stream of funding to programs supported by its endowment while seeking to maintain. over time, the purchasing power of the endowment assets. The overall management objective for the University's pooled endowment funds is to preserve or grow the real (inflation-adjusted) purchasing power of the assets through a prudent long-term investment strategy. This objective would be achieved on a total return basis. Under these policies, as approved by the Board of Trustees and the Penn State Investment Council, the primary investment objective of the University's pooled endowment is to attain a real total return (net of investment management fees) that at least equals a total annual effective spending rate of 5.25% (program spending of 4.5% plus administrative costs of 0.75%) over the long term. To satisfy its long-term rate-of-return objectives, the University relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends). The University targets diversified asset allocation that places a greater emphasis on equity-based investments to achieve its long-term return objectives within prudent risk constraints. The endowment assets of the University are invested in a broad range of equities and fixed income securities, thereby limiting the market risk exposure in any one institution or individual investment. The University has a policy of appropriating for distribution each year a certain percentage (4.5% for 2021) of its pooled endowment fund's average fair market value over the prior five years preceding the fiscal year in which the distribution is planned. Accordingly, over the long term, the University expects the current spending policy to allow its endowment to provide generous current spending while preserving "intergenerational equity". This is consistent with the University's objective to maintain the purchasing power of the endowment assets held in perpetuity as well as to provide additional real growth through new gifts and investment returns.

6. FAIR VALUE MEASUREMENTS

The University utilizes the following fair value hierarchy, which prioritizes into three broad levels the inputs to valuation techniques used to measure fair value:

- Level 1 Quoted prices (unadjusted) for identical assets or liabilities in active markets as of the measurement date. Such instruments valued at Level 1 primarily consist of securities that are directly held and actively traded in public markets.
- Level 2 Inputs other than unadjusted quoted prices that are observable for the asset or liability, directly or indirectly, including quoted prices for similar assets or liabilities in active markets, inputs other than quoted prices that are observable for the asset or liability, and inputs that are derived from observable market data by correlation or other means.

Level 3 – Unobservable inputs that cannot be corroborated by observable market data.

In instances in which the inputs used to measure fair value fall into different levels of the fair value hierarchy, the fair value measurement has been determined based on the lowest level input that is significant to the fair value measurement in its entirety. The University's assessment of significance of a particular item to the fair value measurement in its entirety requires judgment, including consideration of inputs specific to the asset.

The following table presents information as of June 30, 2021 about the University's financial assets and liabilities, as categorized by level of the fair value hierarchy according to the lowest level of inputs significant to each measurement or net asset value (NAV) per share:

(in thousands of dollars)	<u> </u>	_evel 1	-	Level 2	Level 3	NAV	<u>′</u>	<u>Total</u>

<u>Liabilities:</u> Present value of annuities payable	\$	-	\$	-	\$	64,917	\$	-	\$	64,917

Public separate accounts hold public fixed income and equity investments owned directly by the University. Private separate accounts hold private fixed income and equity investments owned directly by the University. Public funds are commingled investment structures that are publicly listed and whose valuations are readily available. Private funds comprise commingled investment structures that are not publicly listed and are managed collectively following a prescribed investment strategy.

The Long-Term Investment Pool (LTIP) is a mutual fund-like vehicle used for investing the University's endowment funds, funds functioning as endowments, and other operating funds that are expected to be held long-term. A unit method of accounting for the LTIP is utilized by the University. Each participating fund enters and withdraws from the LTIP based on monthly unit values. As of June 30, 2021, the fair value of endowment funds and funds functioning as endowments within the LTIP totaled \$4,630.9 million. As of June 30, 2021, the fair value of operating funds included in the LTIP totaled \$1,853.5 million.

The following tables present information related to changes in Level 3 for each category of financial assets and liabilities for year ended June 30, 2021:

(in thousands of dollars) Assets:	Long-Term Investment Operating Pool Investments				Beneficial Interest in Perpetual <u>Trusts</u>			
Beginning balance Total realized and unrealized	\$	-	\$	5,132	\$	24,509		
(losses) gains		- 1 200		(331)		5,422		
Net transfers in (out) Ending balance	\$	1,308 1,308	\$	(10) 4,791	\$	29,931		
Liabilities:	À	Present Value of Annuities Payable						
Beginning balance Actuarial adjustment of liability Gifts Sales	\$	56,564 8,435 1,160						
Ending Balance	\$	(1,242) 64,917						

During 2021, the ownership structure of some University private assets was reassessed and moved from a private fund NAV classification to private separate account Level 3 classification to reflect direct ownership of the investments.

The following table presents the fair value and redemption frequency for private funds' investments whose fair value is not readily determinable and is estimated using NAV or its equivalent as of June 30, 2021:

(in thousands of dollars)	Ending Value	Unfunded Commitments	Redemption <u>Frequency</u>	Redemption Notice Period
Private Funds With Redemption Ability: Fixed income investments	\$ 421,442		Monthly Daily/Monthly	10 days
Equity investments Real asset investments Opportunistic investments Subtotal	2,043,168 136,802 610,372 \$ 3,211,784		Quarterly Daily/Monthly Daily/Quarterly	2-90 days Same day 0-90 days
Private Funds Without Redemption Ability: Fixed income investments Equity investments Real asset investments Opportunistic investments Subtotal	\$ 119,546 1,677,885 244,207 79,074 \$ 2,120,712	\$ 116,250 439,753 161,880 56,100 \$ 773,983		
Total	<u>\$ 5,332,496</u>	<u>\$ 773,983</u>		

Private funds with redemption ability include private funds that the University has some discretion as to the timing of withdrawing money from the commingled fund. Redemptions vary from daily to quarterly with required notification of 90 days or less.

Private funds without redemption ability include private funds that the University has no or very little discretion as to the timing of withdrawing money from the commingled fund. Realizations from these funds are received as the underlying investments are liquidated or distributed, typically within 10-15 years after initial commitment.

Unfunded commitments represent remaining commitments of the LTIP's drawdown funds as of June 30, 2021.

7. CONTRIBUTIONS RECEIVABLE

Contributions receivable are summarized as follows as of June 30, 2021:

(in thousands of dollars)	
In one year or less	\$ 45,821
Between one year and five years	85,599
More than five years	 122,100
Contributions receivable, gross	253,520
Less allowance	(1,415)
Less discount	 (45,459)
Contributions receivable, net	\$ 206,646

Contributions received during the year ended June 30, 2021 are discounted at rates ranging from 0.07% to 1.75%. The discount rates for prior periods ranged from 0.11% to 6.28%.

At June 30, 2021 the University has received bequest intentions of \$714.0 million, and certain other conditional promises to give of \$57.5 million. These intentions and conditional promises to give are not included in the consolidated financial statements.

The following table summarizes the change in contributions receivable, net during the year ended June 30, 2021:

(in thousands of dollars)

Balance at the beginning of year	\$ 208,587
New pledges	59,821
Collections on pledges	(65,194)
Decrease in allowance	2,410
Decrease in unamortized discounts	 1,022
Balance at the end of year	\$ 206,646

8. LONG-TERM DEBT

The Lycoming County Authority Tax-Exempt College Revenue Series A 2021 Bonds were issued by Penn College in April 2021 for the purpose of refunding \$34.7 million of the Authority's College Revenue Bond Series 2011.

The Lycoming County Authority Federally Taxable College Revenue Series B 2021 Bonds were issued by Penn College in April 2021 for the purpose of refunding \$21.0 million of the Authority's College Revenue Bond Series 2012.

The University believes it has complied with all financial debt covenants for the year ended June 30, 2021.

Maturities and sinking fund requirements on bonds payable for each of the next five fiscal years and thereafter are summarized as follows:

<u>Year</u>	Annual <u>Installments</u> (in thousands of dollars)
2022 2023 2024 2025 2026	\$ 83,585 85,720 88,350 91,045 99,570
Thereafter Total	2,645,915 \$ 3,094,185

The fair value of the University's bonds payable is estimated based on current rates offered for similar issues with similar security, terms and maturities using available market information as supplied by the various financial institutions who act as trustees or custodians for the University. At June 30, 2021, the carrying value and estimated fair value of the University's bonds payable, including issuance premiums and deferred bond costs, are \$3,266.9 million and \$3,430.7 million, respectively. Certain bond issues have associated issuance premiums; these issuance premiums total \$186.8 million at June 30, 2021 and are presented within the statement of financial position as long-term debt. These issuance premiums will be amortized over the term of the respective outstanding bonds. Certain bond issues have associated deferred bond costs; these deferred bond costs total \$14.1 million at June 30, 2021 and are presented within the statement of financial position as a reduction in long-term debt. These deferred bond costs will be amortized over the term of the respective outstanding bonds.

Notes payable and lines of credit

The University has five notes payable included within the consolidated statement of financial position at June 30, 2021 with balances of \$3.6 million, \$4.7 million, \$6.2 million, \$6.4 million, and \$25.9 million. These notes have payments due through June 2024, June 2025, March 2026, August 2039, and September 2040 and bear interest

at 2.60%, 2.85%, 2.80%, 2.65%, and 2.65%, respectively. The current portion of payments due under these notes totals \$4.9 million at June 30, 2021.

In July 2020, the University issued two lines of credit totaling \$250 million to provide support for its liquidity position in the wake of the COVID-19 pandemic. As of June 30, 2021, \$50 million was drawn on these lines of credit which is included within the consolidated statement of financial position. The interest rates on these lines of credit are LIBOR-based with unused fees on the undrawn portions. At June 30, 2021 the interest rates on the lines of credit were 1.23% and 1.50% and the unused fee rates were 0.25%. The expiration date for the two lines of credit is July 31, 2023.

During 2020, the Health System established lines of credit with PNC Bank, Fulton Bank and Huntington Bank in the amounts of \$75 million, \$55 million and \$100 million, respectively. Total drawn amounts of \$105 million on these lines of credit were repaid in full during 2021, and all lines of credit have expired.

In April 2021, the Health System established a revolving line of credit with PNC Bank in the amount of \$230 million, expiring in April 2024. The interest rate on the line of credit is LIBOR-based plus a spread, with a commitment fee on the undrawn portion. As of June 30, 2021, the Health System had drawn \$100 million on the line with such amount reflected in the current portion of long-term debt. The interest rate as of June 30, 2021 was 0.8%.

9. LEASES

The University leases certain equipment and buildings under operating and finance leases expiring at various dates through 2043. Rentals generally include insurance, taxes and maintenance costs.

Future maturities of lease liabilities at June 30, 2021 are as follows:

(in thousands of dollars)

<u>Year</u>	Finance Leases	<u>Opera</u>	ting Leases
2022	\$ 10,070	\$	31,304
2023	8,739		27,709
2024	6,858		21,817
2025	5,092		19,954
2026	2,400		17,908
Thereafter	 23,942	-	73,818
Total lease payments	57,101		192,510
Less amount representing interest	 (12,072)		(44,456)
Total lease obligations	45,029		148,054
Current portion	 8,200		24,373
Long-term portion	\$ 36,829	\$	123,681

Supplemental lease activity for the year ended June 30, 2021 is as follows:

Components of Lease Expense	(in thou	sands of dollars)
Finance lease expense: Amortization of ROU assets Interest on lease liabilities	\$	9,210 2,042
Total finance lease expense		11,252
Operating lease expense		44,788
Total lease expense	\$	56,040

The weighted-average remaining lease term and weighted-average discount rate at June 30, 2021 were as follows:

	Weighted-Average Remaining Lease Term (Years)	Weighted-Average Discount Rate
University: Finance leases Operating leases	12.37 5.79	4.00% 3.52%
Health System: Finance leases Operating leases	6.57 10.12	6.55% 5.00%

Supplemental cash flow information related to leases for the year ended June 30, 2021 is as follows:

(in thousands of dollars)

ROU assets acquired in exchange for finance lease liabilities	\$ 7,495
ROU assets acquired in exchange for operating lease liabilities	25,444
Beginning operating lease ROU asset balance	147,991
Beginning operating lease liability balance	147,991
Cash paid for amounts included in the measurement of lease liabilities:	
Operating cash outflows from finance leases	2,042
Operating cash outflows from operating leases	23,019
Financing cash outflows from finance leases	\$ 10,908

10. FUNCTIONAL AND NATURAL CLASSIFICATION OF EXPENSES

Functional expenses by natural classification as of June 30, 2021 are as follows:

(in thousands of dollars)	Educational	Auxiliary	Health	
	and General	Enterprises	<u>System</u>	<u>Total</u>
Salaries and wages	\$ 1,762,358	\$ 122,132	\$ 1,431,531	\$ 3,316,021
Benefits	636,626	61,539	376,882	1,075,047
Depreciation	283,963	37,470	114,241	435,674
Plant operations and maintenance	98,383	11,675	82,963	193,021
Other components of net periodic				
postretirement benefit cost	62,033	-	-	62,033
Interest	23,058	26,595	5,589	55,242
Supplies, services, and other	435,147	169,049	1,120,067	1,724,263
Total	<u>\$ 3,301,568</u>	<u>\$ 428,460</u>	<u>\$ 3,131,273</u>	<u>\$ 6,861,301</u>

Education and general is comprised of academic and student services (which consists of instruction, academic support and student services), research, public service and institutional support. The costs of plant operations and maintenance, depreciation, and interest have been allocated across all functional expense categories to reflect the full cost of those activities. Plant operations and maintenance and depreciation expense are allocated based on the total proportionate expenses of each functional classification. Interest expense is allocated based on the proportionate share of total debt-financed construction.

11. RETIREMENT BENEFITS

The University provides retirement benefits for substantially all regular employees, primarily through either contributory defined benefit plans administered by the Commonwealth of Pennsylvania State Employees' Retirement System (SERS) and The Public School Employees' Retirement System (PSERS) or defined contribution plans administered by the Teachers Insurance and Annuity Association (TIAA). The University is billed for its share of the estimated actuarial cost of the defined benefit plans (\$34.5 million, net of applied setoff

credits of \$93.3 million, for the year ended June 30, 2021). The Health System provides retirement benefits for substantially all employees through one of three defined contribution plans administered by Empower Retirement. The University's total cost for retirement benefits, included in expenses, is \$213.0 million for the year ended June 30, 2021.

The SERS is the administrator of a cost-sharing, multi-employer retirement system established by the Commonwealth of Pennsylvania to provide pension benefits for employees of state government and certain independent agencies. As provided by statute, the SERS Board of Trustees has exclusive control and management responsibility of the funds and full power to invest the funds. The SERS funding policy provides for periodic member contributions at statutory rates and employer contributions at actuarially determined rates (expressed as a percentage of annual gross pay) that are sufficient to accumulate assets to pay benefits when due. In April 2020, the University entered into an agreement with SERS to prefund \$1,061.0 million of the University's unfunded actuarial accrued liability in exchange for credits against future contributions. The University's contributions to this plan for the year ended June 30, 2021 were \$31.0 million (net of applied setoff credits of \$93.3 million) and represent approximately 5.8% of total contributions to the plan based on projections for fiscal year 2021. The plan is funded at less than 65% with the funded ratio of the plan at 59.4% as of December 31, 2020.

12. POSTRETIREMENT BENEFITS

The University sponsors a retiree medical plan covering eligible retirees and eligible dependents. This program includes a Preferred Provider Organization (PPO) plan (both a traditional and a qualified high deductible option) for retirees and their dependents who are not eligible for Medicare, and a Medicare Advantage PPO plan. In addition, the University provides certain retiree life insurance benefits to eligible retirees as described below.

Employees who were hired prior to January 1, 2010 are eligible for medical coverage after they retire if either of the following requirements are satisfied:

- they are at least age 60 and have at least 15 years of continuous regular full-time employment and participation in a University-sponsored medical plan immediately preceding the retirement date
- regardless of age, if they have at least 25 years of regular full-time service. The last 10 of those 25 years of University service must be continuous and they must participate in a University-sponsored medical plan during the last 10 years immediately preceding the retirement date.

Effective January 1, 2016, any non-union employee who retires on or before December 31, 2020 will receive a \$5,000 term life insurance policy benefit at no cost to the employee. If a non-union employee retires after December 31, 2020, no life insurance benefit is provided. For certain union employees, a \$5,000 term life insurance policy is provided at no cost to the employee regardless of their retirement date.

The retiree PPO medical plan is a self-funded program, and all medical claims and other expenses are paid from net assets without donor restrictions of the University. The Medicare Advantage PPO plan and life insurance program are fully insured. The retirees pay varying amounts for coverage under the medical plan.

For those employees who were hired after December 31, 2009, the University will contribute funds each month on their behalf to a Retirement Healthcare Savings Plan. This plan is designed to help pay for qualified medical and health-related expenses in retirement, including the purchase of a health insurance policy.

Retirees will be eligible to access their Retirement Healthcare Savings Plan account when they are no longer actively employed at Penn State and have satisfied either of the following requirements:

- completed 25 years of continuous full-time service and are age 60 or older
- completed a minimum of 15 years of continuous full-time service and are age 65 or older.

Included in net assets without donor restrictions at June 30, 2021 is an unrecognized actuarial loss of \$108.9 million that has not yet been recognized in net periodic postretirement cost.

The following sets forth the plan's benefit obligation, plan assets and funded status reconciled with the amounts recognized in the University's consolidated statement of financial position at June 30, 2021:

Change in benefit obligation: (in thousands of dollars)			
Benefit obligation at beginning of year	\$ 2,344,814		
Service cost	37,137		
Interest cost	61,951		
Actuarial gain	(399,022)		
Benefits paid	(45,338)		
Plan assumptions	61,142		
Benefit obligation at end of year	\$ 2,060,684		
Change in plan assets: (in thousands of dollars)			
Fair value of plan assets at beginning of year	\$ -		
Employer contributions	45,338		
Benefits paid	(45,338)		
Fair value of plan assets at end of year	<u>\$</u>		
Funded status	\$ (2,060,684)		
Unrecognized prior service cost			
(benefit)	-		
Unrecognized net actuarial loss Accrued postretirement benefit expense	<u>\$ (2,060,684</u>)		
ONPOLICO			

Net periodic postretirement cost includes the following components for the year ended June 30, 2021:

Operating expenses: Service cost	\$ 37,137
Nonoperating activities: Interest cost Amortization of prior service cost Amortization of unrecognized net loss	 61,951 (906) 987
Net periodic postretirement cost	\$ 99,169

The assumed healthcare cost trend rate used in measuring the accumulated postretirement benefit obligation was 6.70% for the year ended June 30, 2021, reduced each year to an ultimate level of 5.00%. The postretirement benefit obligation discount rate was 3.23% for the year ended June 30, 2021. During 2021, the plan had favorable claims experience compared to assumptions in addition to positive results related to the change in the mortality table improvement scale.

If the healthcare cost trend rate assumptions were increased by 1%, the accumulated postretirement benefit obligation would be increased by \$402.4 million as of June 30, 2021. The effect of this change on the sum of the service cost and interest cost components of the net periodic postretirement benefit cost would be an increase of \$23.8 million as of June 30, 2021. If the healthcare cost trend rate assumptions were decreased by 1%, the accumulated postretirement benefit obligation would be decreased by \$316.3 million as of June 30, 2021. The effect of this change on the sum of the service cost and interest cost components of the net periodic postretirement benefit cost would be a decrease of \$18.0 million as of June 30, 2021.

Gains and losses in excess of 10% of the accumulated postretirement benefit obligation are amortized over the average future service to assumed retirement of active participants.

Postretirement benefits expected to be paid for the years ended June 30 are as follows:

	(in th	ousands of
	(dollars)
2022	\$	53,755
2023		58,628
2024		64,117
2025		69,537
2026		74,480
2027-31		437,095

13. PENN STATE HEALTH

Penn State Health was organized exclusively for the charitable, educational, and scientific purposes as defined and limited by Section 501(c)(3) of the Internal Revenue Code of 1986. The Health System's purpose is to promote, support and further the charitable, educational, and scientific purposes of the University. The Health System is controlled by the University with a 20% minority ownership by Highmark Health. The Health System recorded non-controlling interest, excess of revenues over expenses, related to this minority interest. The total non-controlling interest related to Highmark Health is recorded in net assets without donor restrictions within the consolidated statement of financial position with a value at June 30, 2021 of \$319.8 million.

The wholly owned subsidiaries of the Health System include the Milton S. Hershey Medical Center (MSHMC), Saint Joseph's Regional Health Network and Medical Group (SJRHN/SJMG), Penn State Community Medical Group (PSCMG), Holy Spirit Medical Center (HSMC), Nittany Health, Inc. ("Nittany"), Central PA Health Network (CIN), Penn State Health Hampden Medical Center ("Hampden"), Penn State Health Lancaster Medical Center (LPADC) and Penn State Health Life Lion, LLC (PSHLL).

The Health System has three, not-for-profit, acute care hospitals. MSHMC is a 639-licensed bed academic medical center located in Hershey, Pennsylvania. The hospital is a Level 1 Regional Trauma Center. Additionally, MSHMC operates an ambulatory surgical center, which provides endoscopy procedures to the Centre County Region. SJRHN is a 204-licensed bed hospital in the Berks County Region. SJRHN owns Saint Joseph Health Services, LLC ("SJHS, LLC") which is a for-profit subsidiary. HSMC was acquired on November 1, 2020 and is a 306-licensed bed hospital in Cumberland County. All acute care hospitals provide inpatient, outpatient and emergency services.

The Health System has two acute care hospitals that are under construction. Hampden will be a 108-licensed bed acute care hospital to be located in Cumberland County. Hampden is scheduled to open in Fall of 2021. LPADC will be a 129-licensed bed acute care hospital to be located in Lancaster.

On June 23, 2020, the Health System established Penn State Health Life Lion, LLC. The purpose of PSHLL is to provide emergency medical services into a broader geographic region. On December 1, 2020 PSHLL began operations.

The Health System, through its medical groups, operates a non-acute and ambulatory network with consists of over 94 sites of patient care in nine counties. The Health System, through its affiliates, also operates two-joint venture specialty hospitals, the Penn State Health Rehabilitation Hospital (PSHR) and Pennsylvania Psychiatric Institute (PPI). The Health System has additional jointly owned health care centers, home health care services and ambulatory surgical centers. These include Hershey Outpatient Surgery Center (HOSC), Hershey Endoscopy Center (HEC), Cancer Care Partnership (CCP) and Horizon Healthcare Services ("Horizon"). Nittany owns 72% interest in HOSC and therefore the operations of HOSC are included in the consolidated financial statements of the Health System, with the 28% unowned interest reported as non-controlling interest. This non-controlling interest is recorded in net assets without donor restrictions within the consolidated statement of financial position with a value at June 30, 2021 of \$2.4 million.

During 2021, the Health System received cash contributions related to the Community Health Reinvestment Act from Highmark Health. The cash contributions of \$30.0 million are recorded as Health System revenue on the consolidated statement of activities. Additionally, during 2021, the Health System paid Highmark Health \$226.6 million related to employee benefit expenses and recorded \$658.2 million in net patient revenue related to Highmark Health third party payor contracts. As of June 30, 2021, the Health System has a liability due to Highmark Health in the amount of \$3.1 million. This liability is related to a contractual agreement between the parties and is included in accounts payable and other accrued expenses in the consolidated statement of financial position.

14. CONTINGENCIES AND COMMITMENTS

Contractual Obligations

The University has contractual obligations for the construction of new buildings and for additions to existing buildings in the amount of \$1,620.7 million, of which \$1,214.0 million has been paid or accrued as of June 30, 2021. The contract costs are being financed from available resources and from borrowings.

Letters of Credit

The University has available letters of credit in the amount of \$39.7 million as of June 30, 2021. These letters of credit are used primarily to comply with minimum state and federal regulatory laws that govern various University activities. The fair value of these letters of credit approximates contract values based on the nature of the fee arrangements with the issuing banks.

Guarantees

The University has a contract with a third party whereby the third party acts as an agent of the University in connection with procurement of electricity. The University guarantees the payment of the obligations of the third party incurred on behalf of the University to counterparties.

Self-Insurance

The University has a coordinated program of commercial and self-insurance for medical malpractice claims for the Health System through the use of a qualified trust and a domestic captive insurance company in combination with a self-insured retention layer and is supplementing this program through participation in the Pennsylvania Medical Care Availability and Reduction of Error Fund ("MCARE Fund"), in accordance with Pennsylvania law. An estimate of the present value, discounted at 2% for the year ended June 30, 2021, of the medical malpractice claims liability in the amount of \$162.5 million is recorded as of June 30, 2021.

The subsidiaries of the Health System are self-insured for all medical malpractice claims asserted on or after July 1, 2001, for all amounts that are below the coverage of excess insurance policies and not included in the insurance coverage of the MCARE Fund. Under the self-insurance program, the Health System is required to maintain a malpractice trust fund in an amount at least equal to the expected loss of known claims. The balance of this trust fund was \$33.6 million at June 30, 2021. The Health System intends to fund any claims due during the next year from cash flows from operations.

With approval from the Pennsylvania Department of Labor and Industry (PA-DLI), the University elected to self-insure potential obligations applicable to Pennsylvania workers' compensation. Claims under the program are contractually administered by a third-party administrator. The University purchased insurance coverage from a commercial insurer for claims in excess of \$600,000 per incident. An estimate of the self-insured workers' compensation claims liability in the amount of \$7.3 million, discounted at 0.87%, is recorded as of June 30, 2021. The University has established a trust fund, in the amount of \$14.5 million at June 30, 2021, as required by PA-DLI, to collateralize and to provide for the payment of claims under this self-insurance program. The Health System is self-insured for workers' compensation claims and has purchased excess policies through commercial insurers which cover individual claims in excess of \$750,000 per incident for workers' compensation claims.

The University and the Health System are self-insured for certain health care benefits provided to employees. The University and the Health System have purchased excess insurance policies which cover employee health benefit claims in excess of \$600,000 per employee per year. The University and the Health System provide for reported claims and claims incurred but not reported.

Litigation and Contingencies

Various legal proceedings have arisen in the normal course of conducting University business. The outcome of such litigation is not expected to have a material effect on the financial position of the University.

Based on its operation of the Health System (see Note 13), the University, like the rest of the healthcare industry, is subject to numerous laws and regulations of federal, state and local governments. Compliance with these laws and regulations can be subject to government review and interpretation, as well as regulatory actions. Government activity has continued with respect to investigations and allegations concerning possible violations of fraud and abuse statutes and regulations by healthcare providers. Although the University believes it has done its best to comply with these numerous regulations, such government reviews could result in significant repayments of previously billed and collected revenues from patient services.

15. SUBSEQUENT EVENTS

The University has evaluated subsequent events through December 17, 2021, the date on which the consolidated financial statements were issued. It did not identify any subsequent events to be disclosed other than those below or previously noted.

In July 2021, the University paid off all outstanding amounts on its two lines of credit and the related loan documents were fully terminated.

In November 2021, the Health System issued the Lancaster County Hospital Authority Revenue Bonds (Penn State Health), Series 2021 in the amount of \$288.8 million for the purpose of financing the construction of the Penn State Health Lancaster Medical Center.

1. BASIS OF PRESENTATION AND ACCOUNTING

The purpose of the Schedule of Expenditures of Federal Awards ("the Schedule") is to present a summary of the activities of The Pennsylvania State University ("the University") for the year ended June 30, 2021 which have been financed by the United States Government. The federal award information is presented in accordance with the provisions of Office of Management and Budget ("OMB") Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* ("Uniform Guidance"). The Schedule is prepared on the accrual basis of accounting.

Expenditures for federal awards are determined using the cost accounting principles and procedures set forth in OMB Circular A-21, *Cost Principles for Educational Institutions*, and the uniform administrative requirements as set forth in OMB Circular A-110, *Uniform Administrative Requirements for Grants and Agreements with Institutions of Higher Education, Hospitals, and Other Non-Profit Organizations*, or the administrative and cost principles contained in Uniform Guidance, as applicable. Amounts passed through to subrecipients represent amounts paid to a third party for effort performed in support of the University's federal awards.

Because the Schedule presents only a selected portion of the activities of the University, it is not intended to, and does not, present the financial position, results of operations or cash flows of the University.

The University's consolidated financial statements are prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America (GAAP). The Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) is the source of Authoritative GAAP. The University's consolidated financial statements include statements of financial position, activities and cash flows. In accordance with FASB ASC requirements, net assets and the changes in net assets are classified as with donor restrictions or without donor restrictions.

Negative amounts shown on the Schedule represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years. Pass-through entity identifying numbers are presented where available.

2. INDIRECT COST RATE

The University has not elected to use the 10% de minimis indirect cost rate.

3. FEDERAL LOAN PROGRAMS

The University administers the following federal loan programs:

Title	ALN	Contribi Yea	ral Capital ution for the r Ended 30, 2021	Loan Expenditures And Disbursements	Outstanding Balance at une 30, 2021
Federal Perkins Loan Program Health Professions Student Loan Program	84.038 93.342	\$	-	\$ -	\$ 26,251,465 1,359

The above expenditures for the loan programs include disbursements and expenditures such as loans to students and administrative expenditures. The Schedule only includes administrative allowances charged to the loan program.

4. FEDERAL DIRECT LOAN PROGRAM

The University participates in the Federal Direct Student Loan Program (ALN 84.268) including Federal Stafford Loans and Federal PLUS Loans. Loan disbursements under the program for the year ended June 30, 2021 totaled \$455,807,351.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Board of Trustees of The Pennsylvania State University University Park, Pennsylvania

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the consolidated financial statements of The Pennsylvania State University and its subsidiaries (the "University"), which comprise the consolidated statement of financial position as of June 30, 2021, and the related consolidated statement of activities and consolidated cash flows for the year then ended, and the related notes to the consolidated financial statements, and have issued our report thereon dated December 17, 2021, which contained an unmodified opinion on those consolidated financial statements and which included an emphasis of matter paragraph regarding the University's change in method of accounting for leases, effective July 1, 2020, due to the adoption of Accounting Standard Codification Topic 842, *Leases*.

The consolidated financial statements of the University include various subsidiaries as outlined in Note 1 to the consolidated financial statements. The financial statements of Penn State Health, including subsidiaries Nittany Health, Inc.; Saint Joseph's Medical Group; Saint Joseph's Regional Health Network; Penn State Community Medical Group; Central PA Health Network; Penn State Health Hampden Medical Center; Penn State Health Life Lion, LLC; Holy Spirit Medical Center; and The Corporation for Penn State subsidiaries, including The Pennsylvania State University Philanthropic Fund and Ben Franklin Technology Center of Central & Northern PA; which were audited by us; and the financial statements of Nittany Insurance Company, which was audited by other auditors, were not audited in accordance with *Government Auditing Standards*, and accordingly, this report does not include reporting on internal control over financial reporting or instances of reportable noncompliance associated with these entities.

Internal Control Over Financial Reporting

In planning and performing our audit of the consolidated financial statements, we considered the University's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the consolidated financial statements, but not for the purpose of expressing an opinion on the effectiveness of the University's internal control. Accordingly, we do not express an opinion on the effectiveness of the University's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. We did identify a deficiency in internal control, described in the accompanying schedule of findings and questioned costs as item 2021-001 that we consider to be a material weakness.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the University's consolidated financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the consolidated financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

The University's Response to Finding

The University's response to the finding identified in our audit is described in the accompanying schedule of findings and questioned costs. The University's response was not subjected to the auditing procedures applied in the audit of the consolidated financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the University's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the University's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM; REPORT ON INTERNAL CONTROL OVER COMPLIANCE; AND REPORT ON SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS REQUIRED BY THE UNIFORM GUIDANCE

To the Board of Trustees of The Pennsylvania State University University Park, Pennsylvania

Report on Compliance for Each Major Federal Program

We have audited The Pennsylvania State University and its subsidiaries (the "University") compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the University's major federal programs for the year ended June 30, 2021. The University's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Our audit, described below, did not include the operations of The Corporation for Penn State subsidiaries, including Nittany Insurance Company; Penn State Recycling Markets Center; The Pennsylvania State University Philanthropic Fund; Research Park Management Corporation; Research Park Hotel Corporation; Ben Franklin Technology Center of Central & Northern PA; and Penn State Research Foundation, because these subsidiaries did not expend federal awards.

The University's consolidated financial statements include the operations of Penn State Health and its subsidiaries ("Penn Health") and the Pennsylvania College of Technology ("PCT"), which expended federal awards which are not included in the University's schedule of expenditures of federal awards during the year ended June 30, 2021, except Penn Health subsidiary, Milton S. Hershey Medical Center, which received federal awards and are included in the University's schedule of expenditures of federal awards. Our audit, described below, did not include the federal awards of Penn Health and PCT because Penn Health and PCT engaged other auditors to perform an audit of compliance.

Management's Responsibility

Management is responsible for compliance with the federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of the University's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained

in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the University's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the University's compliance.

Opinion on Each Major Federal Program

In our opinion, the University complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2021.

Report on Internal Control Over Compliance

Management of the University is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the University's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of University's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

We have audited the consolidated financial statements of the University as of and for the year ended June 30, 2021, and have issued our report thereon dated December 17, 2021, which contained an unmodified opinion on those consolidated financial statements. Our audit was conducted for the purpose of forming an opinion on the consolidated financial statements as a whole. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by the Uniform Guidance and is not a required part of the consolidated financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the consolidated financial statements. The information has been subjected to the auditing procedures applied in the audit of the consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidated financial statements or to the consolidated financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditure of federal awards is fairly stated in all material respects in relation to the consolidated financial statements as a whole.

THE PENNSYLVANIA STATE UNIVERSITY

SECTION II — FINANCIAL STATEMENT FINDINGS - Material Weakness

Recording of Grant and Gift Income:

Finding: 2021-001

Criteria - In accordance with Accounting Standards Codification (ASC) 958-605, unconditional gifts of cash are recognized as revenue upon receipt, and accounts receivable should not be recognized on amounts spent in excess of the original gift, and revenue should not be deferred.

Condition - The University did not appropriately record as gift revenue certain cash receipts that in fact were gifts, and instead recorded the cash as grants, which resulted in a deferral of revenue. In addition, the University incorrectly recorded accounts receivable for expected grant reimbursements for money spent in excess of the cash received.

More specifically, gifts were received at academic units where the respective unit financial offices were responsible for recording gift and grant revenue received within the previous Enterprise Resource Planning (ERP) system. In many instances and over the course of many years, gifts received were incorrectly recorded as grants, and the corresponding revenue was deferred. In addition, Financial Reporting incorrectly recorded accounts receivable for expected future grant reimbursements based upon how the grant was initially recorded.

Cause - The University did not have appropriately designed and implemented internal controls regarding the recording of gift and grant revenue activity within the previous ERP system. As part of its internal controls, the University also did not perform subsequent reviews or reconciliations of the incorrectly recorded cash that was being deferred and the corresponding receivables that were recorded. Financial Reporting did not perform reviews and reconciliations as part of the financial closing process that would have identified and corrected the errors on a timely basis.

Effect - Over the course of many years, this resulted in a cumulative overstatement of \$113.2 million of deferred revenue and \$40.3 million of accounts receivable as of June 30, 2020.

Recommendation – The respective unit financial offices responsible for recording gift and grant revenue should recognize unconditional gifts of cash as revenue upon receipt, and accounts receivable should not be recognized on amounts spent in excess of the original gift, and revenue should not been deferred. Financial Reporting should perform reviews and reconciliations as part of the financial closing process that would identify and correct the errors on a timely basis.

Views of Responsible Officials - As part of management's remediation plan, management has implemented a new ERP system which will better enable the proper recording of gift and grant revenue. In addition, management is providing training to the financial offices on how gift and grant revenue should be recorded along with other corrective actions. Management is also currently in the process of designing and implementing a review control at the University Financial Reporting level that will enable Financial Reporting to detect a material misstatement related to gift and grant revenue received at the academic units on a timely basis. This control is expected to be performed on a quarterly basis and will include a review of relevant supporting documentation.

THE PENNSYLVANIA STATE UNIVERSITY

SUMMARY SCHEDULE OF PRIOR YEAR AUDIT FINDINGS FOR THE YEAR ENDED JUNE 30, 2021

The following schedule contains the finding reference number and title for the finding(s) included in the June 30, 2020 report and the status of each finding as of June 30, 2021.

Reference		Corrective
<u>Number</u>	<u>Program</u>	Action
2020-001	Federal Agency: U.S. Department of Health and Human Services/Health Resources and Services Administration	Corrected
	Federal Program: Small Rural Hospital Improvement Grant Program/Coronavirus State Hospital Improvement Program	
	ALN # Number : 93.301	
	Compliance Requirement: Reporting/ Federal Funding Accountability and Transparency Act
