#### Part VI Supplemental Information

Provide the following information.

- 1 Required descriptions. Provide the descriptions required for Part I, lines 3c, 6a, and 7; Part II and Part III, lines 2, 3, 4, 8 and 9b.
- 2 Needs assessment. Describe how the organization assesses the health care needs of the communities it serves, in addition to any CHNAs reported in Part V, Section B.
- **3** Patient education of eligibility for assistance. Describe how the organization informs and educates patients and persons who may be billed for patient care about their eligibility for assistance under federal, state, or local government programs or under the organization's financial assistance policy.
- 4 **Community information.** Describe the community the organization serves, taking into account the geographic area and demographic constituents it serves.
- 5 **Promotion of community health.** Provide any other information important to describing how the organization's hospital facilities or other health care facilities further its exempt purpose by promoting the health of the community (e.g., open medical staff, community board, use of surplus funds, etc.).
- 6 Affiliated health care system. If the organization is part of an affiliated health care system, describe the respective roles of the organization and its affiliates in promoting the health of the communities served.
- 7 State filing of community benefit report. If applicable, identify all states with which the organization, or a related organization, files a community benefit report.

Part 1 - All financial data in schedule H refers only to the Penn State Milton S. Hershey Medical center - 7f Total expenses include total

Operating Expenses of the Medical Center and the fund transfers to the College of Medicine

Total Financial Assistance and Certain Other Community Benefits at Cost is 9.6% of Total Operating Expenses, when the fund transfers

supporting the Health Education and Research programs (\$2,640,585) managed by the College of Medicine are included.

Part III sec B.8 Medicare - Hospital Medicare costs were calculated using MCCR (as filed) Schedule B1, total costs, subtracting out GME costs

(reported part 1, 7f) and then multiplying that result by the Medicare payer mix for the hospital entity. Professional Medicare costs were

calculated by taking the total WRVU for the professional entity and multiplying that result by the average cost per WRVU

(including malpractice costs), that result is then calculated by the Medicare payer mix for the professional entity.

Part III Sec A.3 Bad Debt & Charity Care - Attached Appendix A

Part V - Financial Assistance Policy #14 - The hospital facility does not attach the actual policy to billing invoices, post in emergency

department, waiting rooms or admissions, however our patient invoices, flyers and brochures indicate that financial assistance is available to

patients who cannot afford to pay their medical bills.

#### Part VI – Supplemental Information

#### Appendix A

**Bad Debts** - Patient accounts receivable are reduced by an allowance for doubtful accounts. In evaluating the collectability of patient accounts receivable, management analyzes past history and identifies trends for each major payor source of revenue to estimate the appropriate allowance for doubtful accounts. Management regularly reviews data about these major payor sources of revenue in evaluating the sufficiency of the allowance for doubtful accounts. For receivables associated with services provided to patients who have third-party coverage, management analyzes contractually due amounts and provides an allowance for doubtful accounts (for example, for expected uncollectible deductibles and copayments or for payors who are known to be having financial difficulties that make the realization of amounts due unlikely). For receivables from self-pay patients the Medical Center and Health System records a provision for bad debts in the period of service on the basis of its past experience, which indicates that many patients are unable or unwilling to pay the portion of their bill for which they are financially responsible. In estimating the allowance for doubtful accounts, account age is taken into consideration. The difference between the standard rates (or the discounted rates if negotiated) and the amounts actually collected after all reasonable collection efforts have been exhausted is charged off against the allowance for doubtful accounts.

**Charity Care** – The Medical Center provides care to patients who meet certain criteria under its charity care policy without charge or at amounts less than established rates. The Medical Center does not pursue collection of amounts determined to qualify as charity care and is based on a ratio of the Medical Center's operational costs to its gross margin.

#### CHNA (Part V Section B 3-4)

For its 2018 Community Health Needs Assessment (CHNA), Penn State Health formed a collective workgroup that included **Penn State Health Milton S. Hershey Medical Center** (PSHMC), Penn State Health St. Joseph Medical Center (PSHSJ), Pennsylvania Psychiatric Institute (PPI) and key community stakeholders to identify and address the needs of residents living in Berks, Cumberland, Dauphin, Lancaster and Lebanon counties.

This was the third CHNA conducted by entities of Penn State Health. Previous assessments in 2012 and 2015 involved a different consortium of health care institutions and study area. For the 2018 CHNA, Penn State Health opted to conduct a system wide assessment, focusing on the collective areas served by its hospitals and affiliated health providers.

#### Implementation Strategy (Part V Section B 6-7)

The comprehensive CHNA was conducted from January to August 2018, with Baker Tilly as our consulting partner. The study included an in-depth review of primary and secondary data for the five counties comprising Penn State Health's primary geographic service area. More than 1,500 community members participated in the CHNA process by completing Key Informant and Community Member surveys, attending forums and participating in focus groups.

Experts in community health from each health care institution, as well as key community stakeholders, participated in the 2018 CHNA workgroup to guide the process and review findings. The study culminated with the identification and prioritization of the most pressing health issues that impact residents within our five-county service area. Information collected through the CHNA is used to inform our community benefit investments, guide our health improvement initiatives and advance our population health management strategies.

The CHNA and Implementation Strategy were adopted by the hospital Board of Directors in April, 2019 and made publicly available and published on our website immediately following. Internal monitoring and tracking is on-going as part of the three-year implementation process.
